Dietary Fiber	22g	79%	Selenium	60mcg	150%

# Key Botanical Ingredients & Research

## Immune-Modulating Botanical Blend

Clinically Studied Ingredients for Immune Support

### Key Botanical Ingredients in Optima Immuna

**Nigella Sativa (Black Seed):** Contains Thymoquinone, a bioactive compound with powerful immunomodulatory and antioxidant properties. Traditional herb known for supporting immune function and natural antimicrobial activity.

**Curcumin (Turmeric):** Powerful anti-inflammatory and antioxidant compound. Research shows it supports immune cell function and helps modulate inflammatory responses during illness and recovery.

**Panax Ginseng Root Extract:** Adaptogenic herb that supports immune function, vitality, and stress response. Contains ginsenosides that enhance natural killer cell activity and antibody production.

**Allium Sativum (Garlic) Extract:** Natural antimicrobial with cardiovascular benefits. Contains allicin and other sulfur compounds that support immune cell function and provide antioxidant protection.

- Supports immune cell proliferation and function
- Provides antioxidant protection against oxidative stress
- Helps modulate inflammatory response
